

MARCO JEAN F. PAGOTAISIDRO

Laravel & PHP Developer

pagotaisidromarcojean@gmail.com | 0935 774 5262 | Zamboanga City, Philippines |
marcojeandev-jade.vercel.app | github.com/marcojeandev

PROFESSIONAL SUMMARY

IT graduate with 1+ year of Laravel development experience. Built MiniHRIS — a full-stack HR management system with employee, attendance, salary, and payroll modules. Skilled in RESTful APIs, database design, and Laravel security (Sanctum auth, role-based access, SQL injection prevention). Seeking junior backend/full-stack developer roles.

TECHNICAL SKILLS

Languages: PHP, JavaScript, TypeScript, HTML, CSS

Backend: Laravel, RESTful APIs, Sanctum Auth, Eloquent ORM, MySQL, Migrations

Frontend: React, Vite, Tailwind CSS, Axios, TypeScript

Security: Role-Based Access, CSRF/XSS Protection, SQL Injection Prevention

Tools: Git, Postman, VS Code, Windows

PROJECTS

MiniHRIS — HR Management System (Laravel + React) | github.com/marcojeandev/MiniHRIS modules

- Employee, Attendance, Salary, Payroll modules with full CRUD
- Role-based authorization using Laravel Policies
- Sanctum API authentication with token-based auth
- React + Vite + TypeScript + Tailwind CSS frontend
- Printable payroll slips and attendance tracking
- Payroll computation: Basic Salary + Allowance - Deductions

PROFESSIONAL EXPERIENCE

Freelance Laravel Developer — Self-Employed

2025 – 2026

- Built a complete full-stack web application for a client, covering both backend logic and front-end views.
- Developed a PHP-based system, including user authentication and database management.
- Implemented security features such as role-based access control and SQL injection prevention.
- Delivered a fully working application that met the client's academic requirements and deadlines.

EDUCATION

Bachelor of Science in Information Technology

2022 – 2026

Zamboanga Peninsula Polytechnic State University

- Relevant coursework: Systems Administration, PHP Development, Database Management.
